Accommodated Shaft Diameter:

18.625 inches

Seal Width:

Between 0.415 inches and 0.425 inches

Housing Bore Diameter:

19.545 inches

Special Features:

Seal, carbon/graphite filled polytetrafluoroethylene. Spring, corrosion resistant steel, 301

Material:

Plastic polytetrafluoroethylene sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
