Accommodated Shaft Diameter:

26.250 inches

Seal Width:

Between 0.415 inches and 0.425 inches

Housing Bore Diameter:

27.170 inches

Special Features:

Carbon-graphite filled polytetrafluoroethylene, spring is corrosionresistant steel 301

Material:

Plastic polytetrafluoroethylene sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
