Cross Sectional Shape:

O-ring

Cross Section Outside Diameter:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 5.702 inches and 5.772 inches

End Application:

Preprovisioning support navicp is poe

Special Features:

Must conform to mil-std-413

Material:

Rubber

Material Specification:

Ams 7257 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
