Cross Sectional Shape:
O-ring
Cross Section Outside Diameter:
Between 0.067 inches and 0.073 inches
Center Hole Diameter:
Between 2.965 inches and 3.013 inches
End Application:
T-64 engine
Criticality Code Justification:
Agav
Special Features:
Must conform to mil-std-413
Material:
Rubber
Material Specification:
Ams 7257 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
