Min. Tensile Strength (psi):

6000 pounds per square inch and 1200 pounds per square inch

Tempurature Rating:

121.0 degrees celsius

Length:

25.000 feet

End Application:

Wagner steering system cpf

Special Features:

Recommended for oil and water applications

Material:

Rubber, neoprene and cotton duck

Material:

Rubber chloroprene class cr and cotton

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
