Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

1056.0 astm scale and 1091.0 astm scale

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

11.000 inches

Surface Condition:

Any acceptable both sides

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

2.500 inches

End Application:

Plastic waste shredder, top level assembly

Material:

Rubber, neoprene or sponge rubber or silicone rubber

Material:

Rubber chloroprene class cr or sponge or rubber silicone class q

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
