Cross Sectional Shape:

Circular with center aperture

Cross Section Inside Diameter:

0.312 inches

Cross Section Outside Diameter:

0.362 inches

End Application:

Agm-130 container

Construction:

One-piece

Product Name:

Gasket

Special Features:

Developed length at centerline shall be 395.00 in. Min and 397.00 in. Max

Material:

Rubber silicone class q

Material Specification:

Zz-r-765, cl 2a, grade 40 federal specification single material response

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
