Cross Sectional Shape:

Rectangular

Fabrication Method:

Braided

Tempurature Rating:

550.0 degrees fahrenheit

Cross-sectional Height:

0.125 inches

Cross-sectional Width:

0.125 inches

End Application:

Valve temp re; nimitz class cvn

Product Name:

Synthepak style 5022-afp

Special Features:

Ph range 0-12; construction square or rectangular; construction encapsulates the copper wire reinforcement; pressure to 3000 psi

Material:

Yarn and copper

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
