Min. Tensile Strength (psi):

90 pounds per square inch

Tempurature Rating:

-100.0 degrees fahrenheit and 500.0 degrees fahrenheit

Product Name:

General purpose closed cell silicone sponge

Special Features:

Material medium silicone sponge rubber; compresion deflection (astm d-1056) 6 - 14 psi; elongation (astm d-412) 200 percent; compression set (astm d-1056) 25 percent; density (d-297 hydrostatic method) 0.014 - 0.020 lbs./in.; water absorption (astm d-1056) less than 5 percent; meets ul 1570, 1571, and 1572 specifications; also available i black and gray colors, 36 by 36 in. Sheets, and continuous length 36 in. Wide (specify length required)

Color:

Orange tan both sides

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
