Cross-sectional Height:

0.297 inches

Center Hole Diameter:

Between 0.318 inches and 0.326 inches

Peripheral Diameter:

Between 0.458 inches and 0.464 inches

End Application:

Valve; bronze: 1/4-2in union end globe; in line & angle; stop, stop check & needle

Special Features:

Head maybe 37/65 in diameter round or hex with 1/2 in across flats

Material:

Copper alloy

Material Specification:

Astm b150 or astm b139, alloy c51000 national specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
