Hole Diameter:

0.155 inches

Cross-sectional Thickness:

Between 0.024 inches and 0.030 inches

Bolt Hole Quantity:

1

End Application:

1520-01-355-8250

Slot Quantity:

1

Criticality Code Justification:

Agav

Special Features:

Gasket is pie slice shaped with one hole on one end and slotted on the opposite end, four corners are rounded with a .190 radius

Material:

Rubber synthetic and asbestos

Material Specification:

Ams3232 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
