Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 7.480 inches and 8.270 inches

Seal Width:

0.980 inches

End Application:

B-2 bomber

Housing Bore Diameter:

8.840 inches

Construction:

Solid

Product Name:

V-seal

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Gbsa standard grade; nitrile temp range -40 to +225 f mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
