Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 12.200 inches and 13.190 inches

Seal Width:

0.980 inches

End Application:

B-2 bomber

Housing Bore Diameter:

13.250 inches

Construction:

Solid

Product Name:

V-seal nitrile

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Gbsa standard grade nitrile; temp -40 to +255 degrees f mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
