Cross Sectional Shape:

Tee

Inside Diameter:

Between 0.370 inches and 0.372 inches

Outside Diameter:

Between 0.550 inches and 0.552 inches

Temperature Rating:

-65.0 degrees fahrenheit and 275.0 degrees fahrenheit

Cross-sectional Height:

Between 0.141 inches and 0.151 inches

Center Hole Diameter:

Between 0.370 inches and 0.372 inches

Peripheral Diameter:

Between 0.550 inches and 0.552 inches

End Application:

Eurofighter 2000

Special Features:

Backup ring material avalon01

Height:

Between 0.141 inches and 0.151 inches

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
