Accommodated Shaft Diameter:

Between 0.662 inches and 0.672 inches

Seal Width:

Between 1.001 inches and 1.005 inches

End Application:

Truck

Case Style:

Square

Housing Bore Diameter:

0.999 inches

Sealing Element Style:

Vertical

Product Name:

Seal, grease

Special Features:

Seal type crw1, thickness 0.188 +/- 0.015: bore-tite coated 0.001-0.003 on diameter

Material:

Steel case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
