Cross Sectional Shape:

Circular

Min. Tensile Strength (psi):

650 pounds per square inch

Length:

21.000 inches

Surface Condition:

Smooth inside and outside periphery

Cross Section Outside Diameter:

0.085 inches

End Application:

Aircraft, tomcat f-14

Product Name:

Gasket, replaceable cover

Special Features:

Material per ams3327, flu0rosilicone

Material:

Rubber

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
