Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

Between 0.809 inches and 0.817 inches

Seal Width:

0.061 inches

End Application:

Aircraft, eagle f-15

Housing Bore Diameter:

Between 0.934 inches and 0.942 inches

Construction:

One-piece

Special Features:

This seal has no spring

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651c assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
