Cross Sectional Shape:

Rectangular

Length:

27.400 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

0.250 inches

End Application:

Nssn class submarine; engine room watertight bilge door

Product Name:

Gasket

Material:

Rubber, cellular

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
