Cross Sectional Shape:

O-ring

Cross Section Outside Diameter:

Between 0.029 inches and 0.035 inches

Center Hole Diameter:

Between 0.636 inches and 0.652 inches

Material:

Rubber silicone class q

Material Specification:

Ams3337 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
