Cross Sectional Shape:

O-ring

Cross Section Outside Diameter:

Between 2.717 inches and 2.767 inches

Center Hole Diameter:

Between 2.631 inches and 2.675 inches

End Application:

T-64ge-100/414/415/416/416a/419 engine used on mh-53j & th-53a

Criticality Code Justification:

Agav

Material:

Rubber

Material Specification:

Mms 7257 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
