Accommodated Shaft Diameter:

Between 0.178 inches and 0.198 inches

Seal Width:

0.860 inches

End Application:

Nssn submarine valve, assy and detail hull and backup towed sonar

Housing Bore Diameter:

Between 1.865 inches and 1.885 inches

Construction:

One-piece

Product Name:

Seal dynamic

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
