Cross-sectional Height:

Between 0.735 inches and 0.750 inches

Center Hole Diameter:

Between 0.468 inches and 0.483 inches

End Application:

Nssn submarine valve, assy and detail hull and backup towed sonar

Product Name:

Seal, static

Special Features:

Square shape, has 2 round corners 2 x r 0.375 to 0.390, flat side 2.000 to 1.985 in, 2 sides 0.990 to 1.000, material pe (polyether urethane)

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
