End Application:

Mk45 nsfs

Product Name:

Retainer, seal gas ejector

Special Features:

13.12in long; 2.124 in dia; has a .06in diameter flange w/4 bolt holes 0.281in eq spaced and 2x250-20unc-3b thru

Material:

Copper alloy

Material Specification:

Astm b150 condin to50 strength cl2 uns c63000 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
