Accommodated Shaft Diameter:

125.0 millimeters

Seal Width:

12.0 millimeters

End Application:

Hypoid bevel gear reducer

Case Style:

Square

Housing Bore Diameter:

150.0 millimeters

Sealing Element Style:

Vertical

Special Features:

Dual lip w/o inner case, bore tite on the o.D., heavy duty

Material:

Steel spring

Material Specification:

Longlife mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
