Cross Sectional Shape:

Dual lip

Accommodated Shaft Diameter:

200.0 millimeters

Seal Width:

15.0 millimeters

End Application:

Carriage assembly

Housing Bore Diameter:

230.0 millimeters

Construction:

One-piece

Special Features:

Etc style nitrile oil seal

Material:

Stainless steel spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
