Cross Sectional Shape:

Tee packing

Inside Diameter:

7.712 inches

Outside Diameter:

8.224 inches

End Application:

B-2

Product Name:

Shock strut assembly

Height:

0.569 inches

Material:

Rubber butadiene nitrile packing

Material Specification:

L-p-410a federal specification single material response bottom ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
