Cross-sectional Thickness:

Between 0.052 inches and 0.072 inches

Cross-sectional Width:

Between 1.240 inches and 1.260 inches

End Application:

B1-b acft

Construction:

One-piece

Product Name:

Seal, drag brace fairing

Material:

Rubber silicone class q packing

Material Specification:

Zz-r-765 federal standard single material response packing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
