Cross Sectional Shape:

V intermediate ring

Inside Diameter:

0.435 inches

Outside Diameter:

0.613 inches

End Application:

V-22 tilt-rotor aircraft

Product Name:

(navy)seal, aircraft, mater; shamban wedgpa (2 b/u)

Special Features:

Dimensioned for 2 back-up ring gland to mil-g-5514f

Height:

0.425 inches

Material:

Rubber butadiene-acrylonitrile class nbr intermediate ring

Material Specification:

Turcon 29 mfr ref single material response top ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-p-25732 spec.
