**Cross Sectional Shape:**

Rectangular

**Nonmetallic Hardness Rating:**

45.0 shore durometer a

**Cross-sectional Height:**

1.250 inches

**Cross-sectional Width:**

0.130 inches

**End Application:**

Access cover, tail, forward

**Product Name:**

Gasket

**Special Features:**

Cut to length and place holes as required for installation

**Material:**

Rubber, ams 7270

**Material:**

Rubber butadiene-acrylonitrile class nbr

**Material Specification:**

Ams 7270 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
