**Cross Sectional Shape:**

Tee inner ring

**Inside Diameter:**

Between 9.994 inches and 9.997 inches

**Outside Diameter:**

Between 10.474 inches and 10.478 inches

**Intermediate Ring Quantity:**

1

**End Application:**

B-2

**Joint Type:**

Scarf-peripheral bottom ring

**Product Name:**

Shock strut assembly

**Special Features:**

E" designation is for "flash free"

**Height:**

Between 0.579 inches and 0.589 inches

**Material:**

Rubber butadiene-acrylonitrile class nbr inner ring

**Material Specification:**

Ams-p-83461 assn standard single material response inner ring

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A032a0
