Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

45.0 shore durometer a

Cross-sectional Height:

2.500 inches

Cross-sectional Width:

0.130 inches

End Application:

Access cover, tail, forward

Product Name:

Gasket

Special Features:

Cut to length and place holes as required for installation

Material:

Rubber, ams 7270

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Ams 7270 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
