Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

45.0 shore durometer a

Min. Tensile Strength (psi):

1000 pounds per square inch

Length:

192.000 inches

Cross-sectional Height:

1.250 inches

Cross-sectional Width:

0.500 inches

End Application:

Seawolf class ssn

Product Name:

Gasket

Special Features:

.19 inch x 45 degrees chamfer on one side, full length

Material:

Rubber, butadiene styrene, astm d2000

Material:

Rubber, butadiene styrene, astm d2000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
