Accommodated Shaft Diameter:

280.0 millimeters

Seal Width:

20.0 millimeters

End Application:

Gear box assembly

Housing Bore Diameter:

320.0 millimeters

Construction:

One-piece

Product Name:

Nippon oil seal

Special Features:

Nippon oil seal nbr tc-type

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
