Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

Between 3.997 inches and 4.000 inches

Seal Width:

Between 0.281 inches and 0.291 inches

End Application:

Seawolf class ssn

Housing Bore Diameter:

Between 4.375 inches and 4.378 inches

Construction:

One-piece

Product Name:

Series w10 rod seal

Material:

Plastic polytetrafluoroethylene sealing element

Material Specification:

Turcon 07 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
