**Operating Medium:**

Hydraulic fluid or air

**Product Name:**

Bonded seals

**Special Features:**

250 mpa maximum pressure; temperature range m65.0-200.00 degrees c

**Functional Description:**

Developed to replace copper type washers in high-pressure hydraulic and pneumatic threaded connections

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
