Aperture Diameter:
Between 12.625 millimeters and 12.650 millimeters
End Application:
Lw155 howitzer
Special Features:
Self-activating pressure activated hydraulic seal; mscimum operating pressure of 11000psi; operating temperature range of minus 54
degrees celcius to 135 degree celcius
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
