Aperture Diameter:

Between 12.625 millimeters and 12.650 millimeters

End Application:

Lw155 howitzer

Special Features:

Self-activating pressure activated hydraulic seal; mscimum operating pressure of 11000psi; operating temperature range of minus 54 degrees celcius to 135 degree celcius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
