**Aperture Diameter:**

Between 12.625 millimeters and 12.650 millimeters

**End Application:**

Lw155 howitzer

**Special Features:**

Self-activating pressure activated hydraulic seal; maximum operating pressure of 11000psi; operating temperature range of minus 54 degrees celcius to 135 degree celcius

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
