Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

2.375 inches

Seal Width:

Between 0.281 inches and 0.291 inches

Housing Bore Diameter:

2.750 inches

Construction:

One-piece

Product Name:

Variseal series w1 rod seal; rod scraper

Material:

Plastic polytetrafluoroethylene sealing element

Material Specification:

Turcon 07 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
