End Application:

Loader, scoop

Component Quantity:

6

Component Document Origin:

Industrial

Document Source:

11083

Document Type:

Catalog sheet

Component Document Page Number:

Hydraulic system page 6

Document Identification:

Hydraulic cylinder 200996

Special Features:

Seal kit consists of: 2 wear rings, 1 polytetrafluoroethylene piston ring, 1 o-ring, 2 back-up ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A560b0
