Cross Sectional Shape:

Spherical

Temperature Rating:

-65.0 degrees fahrenheit and 450.0 degrees fahrenheit

Cross Section Inside Diameter:

0.75 inches

Cross Section Outside Diameter:

0.79 inches

Cross-sectional Length:

2.25 inches

End Application:

F 18 airframe

Criticality Code Justification:

Agav

Material:

Glass fiber and rubber silicone class q

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
