**Cross Sectional Shape:**

Spherical

**Temperature Rating:**

-65.0 degrees fahrenheit and 450.0 degrees fahrenheit

**Cross Section Inside Diameter:**

0.75 inches

**Cross Section Outside Diameter:**

0.79 inches

**Cross-sectional Length:**

2.25 inches

**End Application:**

F 18 airframe

**Criticality Code Justification:**

Agav

**Material:**

Glass fiber and rubber silicone class q

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
