Accommodated Shaft Diameter:

260.0 millimeters

Seal Width:

16.0 millimeters

End Application:

Top plate housing / oil catcher with sst

Housing Bore Diameter:

290.0 millimeters

Special Features:

Seal is twin lipped with mild garter spring; material nitrile hardness is 70 shore durometer

Material:

Stainless steel spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
