Bolt Circle Diameter:

634.0 millimeters

Flange Thickness:

10.0 millimeters

Aperture Diameter:

500.0 millimeters

Bolt Hole Quantity:

12

End Application:

Rudder stock assembly (ngss dwg no 22-01-01)

Bolt Hole Diameter:

21.0 millimeters

Mounting Flange Diameter:

700.0 millimeters

Construction:

One-piece

Product Name:

Sand excluder retaining ring

Material:

Copper alloy

Material Specification:

Monel gr 400 military specification single material response

Style Designator:

Flanged

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

spec.
