Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 1.047 inches and 1.077 inches

Center Hole Diameter:

Between 6.875 inches and 6.890 inches

Peripheral Diameter:

Between 7.860 inches and 7.865 inches

End Application:

Cvn nuclear reactor boundary area

Angle:

66.0 degrees

Product Name:

Gasket (silver plated)

Special Features:

Silver plated .002 to .003 inches thick

Material:

Steel comp 1006

Material Specification:

Astma510 assn standard single material response and astma519 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
