Cross Sectional Shape:

Metal

Hole Diameter:

7.4 millimeters

Center To Center Distance:

0.6 millimeters

Cross-sectional Thickness:

2.2 millimeters

Bolt Hole Quantity:

8

End Application:

Engine group 4.8l

Outside Edge To Inside Edge Smallest Distance Along Length:

10.5 millimeters

Product Name:

Gasket -- engine front cover

Material:

Aluminum external

Style Designator:

U-shape

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
