Accommodated Shaft Diameter:

40.0 millimeters

Seal Width:

30.2 millimeters

End Application:

Capstan assembly

Housing Bore Diameter:

80.0 millimeters

Product Name:

Seal, grease

Special Features:

Item has pressed steel retainer with double rows of ball bearings; the steel is 52100 steel; grease is added to this seal

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
