Cross Sectional Shape:

Hollow bulb

Cross Section Inside Diameter:

0.750 inches

Cross-sectional Thickness:

0.090 inches

Cross-sectional Height:

0.930 inches

Cross-sectional Width:

1.700 inches

End Application:

C-17a aircraft

Special Features:

72 inches long

Material:

Rubber silicone class q backing

Material Specification:

Per dms1894 mfr ref single material response backing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
