Cross Sectional Shape:

Square

Fabrication Method:

Woven lattice

Tempurature Rating:

-170.0 degrees fahrenheit and 500.0 degrees fahrenheit

Cross-sectional Height:

0.188 inches

Cross-sectional Width:

0.188 inches

Lubrication Material:

Plastic, polytetrafluoroethylene and oil

Material:

Fiber, nonasbestos and plastic, tetrafluoroethylene

Material:

Fiber, nonasbestos and plastic tetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
