Cross Sectional Shape:

V

Cross-sectional Height:

Between 0.064 inches and 0.070 inches

Center Hole Diameter:

Between 0.508 inches and 0.514 inches

Peripheral Diameter:

Between 0.614 inches and 0.620 inches

End Application:

Nha valve regulating system, v-22 aircraft

Material:

Plastic polytetrafluoroethylene

Material Specification:

22-53ref mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
